HOW DOES YOUR
STATE COMPARE?

2026

TAX FOUNDATION

In 1941, we introduced our first edition of *Facts & Figures*. “There is need for concise and accurate data,” we wrote. “Facts give a broader perspective; facts dissipate predictions and prejudices. . . [and] this collection of data is an important step to meet the challenge presented by the broad problems of public finance.”

Facts & Figures 2026: How Does Your State Compare? builds on these eight decades of tradition. Mailed to every state legislator and governor, this handbook is designed to be a pocket- and purse-sized guide to state rankings on tax rates, collections, burdens, and more. For easy accessibility, this publication is also available on our website.

These tables were compiled by Tax Foundation staff. We hope these facts contribute to a healthy public debate.

D.C. is designated as a local entity by the US Census Bureau and is thus not included here.

- (a) These states allow some or all of federal income tax paid to be deducted from state taxable income.
- (b) Local income taxes are excluded. Ten states have county- or city-level income taxes; the average effective rates expressed as a percentage of AGI within each jurisdiction (data for 2023, the latest year available, come from the IRS, the US Census Bureau, and are grossed up using data from the Bureau of Economic Analysis) are: AL--0.07%; IN--0.35%; IA--0.08%; KY--0.93%; MD--2.4%; MI--0.16%; MO--0.18%; NY--1.6%; OH--1.2%; OR--0.18%; PA--0.99%. In CA, CO, DE, KS, NJ, OR, and WV, some jurisdictions have payroll taxes, flat-rate wage taxes, or interest and dividend income taxes. See Jared Walczak, Janelle Fritts, and Maxwell James, "Local Income Taxes: A Primer," Tax Foundation, February 23, 2023, <https://taxfoundation.org/local-income-taxes-2023/>.
- (c) Bracket levels are adjusted for inflation every year.
- (d) Rates apply to individuals earning more than \$92,300 (tax year 2025) in Ark. A separate tax tables exist for individuals earning \$92,300 or less.
- (e) 2025 brackets due to data availability.
- (f) Rates include the additional mental health services tax at the rate of 1 percent on taxable income in excess of \$1 million.
- (g) Calif. and Ore. do not fully index their top brackets.
- (h) Top rates exclude non-UI payroll taxes in CA (1.3%), MA (0.46%), and WA (0.58%), a 1% high earners' investment income surtax in MN, and a 2% high earners' capital gains surtax in MD.
- (i) Conn. and N.Y. have "tax benefit recapture," by which many high-income taxpayers pay their top tax rate on all income, not just on amounts above the bracket threshold.
- (j) In Maine, Utah, and West Virginia, the laws enacted to change these states' income tax rates, retroactively effective for tax year 2026, take effect in July, May, and June, respectively.
- (k) In Wash., tax rates apply only to high earners' capital gains income.

Note: Brackets are for single taxpayers. Some states double bracket widths for joint filers (Ala., Conn., Hawaii, Idaho, Kans., Mont., Okla., Ore.). Maine and Nebr. nearly double their bracket widths. Calif. doubles all but the top two brackets. Some states increase but do not double brackets for joint filers (Minn., N.M., N.D., Vt., Wis.). N.Y. and Md. increase some but not all brackets. N.J. adds a 2.45% rate and increases some bracket widths. Consult the Tax Foundation website for tables for joint filers.

- (a) Colorado's 4.4% rate may be reduced midyear subject to revenue availability.
- (b) Connecticut charges a 10% surtax on a business's tax liability if it has gross proceeds of \$100 million or more, or if it files as part of a combined unitary group. This surtax was recently extended and is scheduled to expire on January 1, 2029.
- (c) Nevada, Ohio, Texas, and Washington do not have a corporate income tax but do have a gross receipts tax with rates not strictly comparable to corporate income tax rates. Delaware, Oregon, and Tennessee have gross receipts taxes in addition to corporate income taxes, as do several states like Pennsylvania, Virginia, and West Virginia, which permit gross receipts taxes at the local (but not state) level.
- (d) Illinois' rate includes two separate corporate income taxes, one at a 7% rate and one at a 2.5% rate.
- (e) In New Jersey, the rates indicated apply to a corporation's entire net income rather than just income over the threshold.
- (f) Utah enacted a law in March 2026 that will reduce the state's individual and corporate income tax rates to 4.45%, retroactively effective as of January 1, 2026. This law is scheduled to take effect on May 6, 2026.

Note: In addition to regular income taxes, many states impose other taxes on corporations such as gross receipts taxes (Table 17) and capital stock taxes (Table 35). Some states also impose an alternative minimum tax and special rates on financial institutions.

State Gross Receipts Taxes

Del.	Business and Occupational License and Gross Receipts Tax	0.0945% - 1.9914%
Nev.	Commerce Tax	0.051%-0.331%

Va. (a)	Business/Professional/Occupational License Tax (BPOL)	0.02% - 0.58%
Wash.	Business and Occupation Tax (B&O)	0.138% - 3.3%

(a) Virginia's tax is locally levied and rates vary by business and jurisdiction. Approximately half of counties do not levy the tax. Some counties instead levy a capital stock tax.

Note: Gross receipts taxes are complex business taxes imposed at a low rate but on a wide base of transactions, resulting in high effective tax rates that can vary by industry. These taxes also often have minimum taxes that can result in much higher effective rates for some small businesses.

(d) Special taxes in local resort areas are not counted here.

(e) Certain jurisdictions are not subject to statewide sales tax rates and collect a local rate of 3.3125%. New Jersey's average local rate is represented as a negative.

- (a) Rate does not capture the effects of environmental fuel programs. For example, California's cap-and-trade program and low-carbon fuels program add implied excise taxes of 27 cents and 12 cents, respectively.
- (b) In Connecticut, the petroleum products gross earnings tax adds an implied excise tax of 27 cents.
- (c) Rate does not include significant local taxes. For example, Illinois's rate does not include additional taxes levied by Cook, DuPage, Kane, Lake, and McHenry counties or the city of Chicago

Note: Excise taxes are special taxes on specific goods or activities—such as gasoline, tobacco, or gambling—rather than general tax bases such as income or consumption. Excise taxes are often included in the final price of products and services, and are hidden to consumers.

In order to determine the average tax rate on a gallon of fuel, rates may include any of the following: excise taxes, environmental fees, storage tank taxes, other fees or taxes, and general sales tax. In states where gasoline is subject to the general sales tax, or where the fuel tax is based on the average sale price, the average rate is sensitive to changes in the price of gasoline. States that fully or partially apply general sales taxes to gasoline are California, Connecticut, Illinois, Indiana, and New York. D.C.'s rank does not affect states' ranks, but the figure in parentheses indicates where it would rank if included.

Principles of Sound Tax Policy

As a nonpartisan, educational organization, the Tax Foundation has earned a reputation for independence and credibility. All Tax Foundation research is guided by the principles of sound tax policy, which should serve as touchstones for policymakers and taxpayers everywhere.

SIMPLICITY: Tax codes should be easy for taxpayers to comply with and for governments to administer and enforce.

TRANSPARENCY: Tax policies should clearly and plainly define what taxpayers must pay and when they must pay it. Disguising tax burdens in complex structures should be avoided. Additionally, any changes to the tax code should be made with careful consideration, input, and open hearings.

NEUTRALITY: Taxes should neither encourage nor discourage personal or business decisions. The purpose of taxes is to raise needed revenue, not to favor or punish specific industries, activities, and products. Minimizing tax preferences broadens the tax base, so that the government can raise sufficient revenue with lower rates.

STABILITY: Taxpayers deserve consistency and predictability in the tax code. Governments should avoid enacting temporary tax laws, including tax holidays, amnesties, and retroactive changes.
